EXPERIENCE

CHERRYOLIVE | Software Engineer | Remote | Jan 2026 - May 2026

Freelance software engineering and enterprise integration experience.

- Developed and enhanced a policy subscription platform using Angular and Express.js.
- Performed API testing and troubleshooting using SoapUI to support reliable system integration.
- Worked with Talend ETL to support data extraction, transformation, and loading processes.
- Collaborated with team members to deliver reliable and scalable software solutions.

UMUZI.ORG | Web Developer Recruit | Remote | Aug 2023 - Aug 2024

Built and maintained web applications using frontend and backend technologies, with a focus on responsive design, APIs, databases, automated testing, Git workflows, troubleshooting, and user experience.

WOPL | Full-Stack Developer | Remote | Jun 2022 - Aug 2023

Developed mobile applications and websites across the software development lifecycle, with attention to usability, performance, scalability, and collaboration.

EDUCATION

UMUZI.ORG | System Development NQF Level 5 | Aug 2023 - Aug 2024 | Remote

NELSON MANDELA UNIVERSITY | Software Development Diploma | 2018 - 2021 | Port Elizabeth
